

iwis agrisystems

Anwendungsbeispiele

- Schneidwerke
- Mähdrescher
- Einzugskanäle
- Rundballenpressen
- Ladewagen
- Kartoffel- und Rübenrodemaschinen
- Getreideförderung und -trocknung

Produktlösungen

- Maisgebissketten
- Elevatorketten
- Einzugsketten
- HBC- Ketten
- Rundstahlketten
- Kratzbodenketten
- Kettenräder

DIN ISO 9001 certification has been in place since 1994.

Our strict quality control standards apply not only to our in-house production, but also to components from our sub-contractors. Quality is assured by our own inspection and testing equipment. Our flexibility in fulfilling special requirements and customer requests typifies our service commitment.

Based on years of development, testing and proven performance, ELITE Gathering Chains combine a proven chain design with optimum material and metallurgical specifications to provide performance and value unparalleled in the marketplace.

ELITE Gathering Chains – designed and manufactured to the highest strength durability standards in the roller chain industry.

Ballenpressen

ELITE HBC – NEW CHAIN

Highlights

- All link plates with a higher proportion of clean-cut-edges offer longer chain service life and higher retention forces for greater stability
- Reduced wear with no change to chain dimensions due to high performance steels and optimized heat treatment process
- Optimized plate contours and special materials offer higher fatigue strength compared to the same size of standard chain
- Premium quality initial lubricant designed to meet the requirements of baler conditions
- Longer maintenance / chain replacement intervals can be attributed to the best ratio of fatigue strength and wear resistance currently available in the market
